An aerial photograph of an Air Canada Boeing 787-9 Dreamliner flying over a stunning coastal landscape. The plane, with "AIR CANADA" and its logo clearly visible, is positioned in the upper right quadrant of the frame. Below it, a vast expanse of deep blue water is dotted with numerous small, forested islands and peninsulas. The foreground features a large, prominent island covered in dense green coniferous trees, with white-capped waves crashing against its rocky shore. In the far distance, a range of mountains is visible under a sky filled with soft, white clouds.

Travel to Japan

Presented by:
Robert Lawler, Manager Regional Sales, Boston
Air Canada

October 27, 2026

Who We Are

Air Canada is **Canada's largest airline** and the **largest provider of scheduled passenger services** in the Canadian market, the Canada-U.S. transborder market and in the international market to and from Canada.

We're a founding member of Star Alliance™, providing the world's most comprehensive air transportation network.

Making Connections Easy

We offer simple and efficient connections as passengers travel through our Canadian hubs to their final international destination.

Air Canada partners with Michelin-starred Chef **Masaki Hashimoto** to elevate Signature Class dining on Japan Routes

- As one of the few Kaiseki chefs to venture beyond Japan's borders, Hashimoto has spent decades introducing the intricate beauty and grace of Japanese dining traditions to the world.
- Chef Hashimoto curated meals in Air Canada Signature Class on all flights between Canada and Japan using traditional ingredients including a Zensai (appetizer), Komono (side dishes) and Oshokuji (main course).
- In partnership with Noritake, meals will be served using traditional dishware and tray presentations to further elevate the experience

To complement the meals, a premium sake pairing will be offered, selected by Chef Hashimoto's son, Kei Hashimoto, a certified Kiki sake-shi (sake sommelier) accredited by the Sake Service Institute in Tokyo. The featured sake, Ninki-ichi Junmai Daiginjo Gold, is crafted from Gohyakumankoku sake rice, prized for its clean, crisp character. Filtered using the Yabuta system, it achieves exceptional purity with a balanced profile of floral and fruity notes and a smooth, velvety mouthfeel.

"It has always been a lifelong dream of mine to bring an authentic Japanese in-flight dining experience to travellers. Partnering with Air Canada is truly an honour for me, as it brings together the two places I now call home—Japan and Canada," said Chef Masaki Hashimoto.

"This collaboration allows us both to bridge the rich cultural landscapes of each country and celebrate our shared values of care, respect, and connection."

Chef Hashimoto's creations are now offered as part of Air Canada's Signature Class dining menu on all Air Canada flights between Canada and Japan. Air Canada offers the most flights between Canada and Japan, with up to six daily flights from three airports in Canada to three airports in Japan this summer:

- Vancouver to Narita: daily flights
- Vancouver to Osaka: four weekly flights
- Toronto to Narita: daily flights
- Toronto to Haneda: daily flights
- Toronto to Osaka: three weekly flights
- Montreal to Narita: daily flights
